Wednesday November 2, 2022

10:30 – 11:10

Lori Lathrop Stern, PhD.

SRD, LScience Liaison in the Health Division of IFF

Bio

Lori Lathrop Stern, PhD, RD, LDN is the Science Liaison in the Health Division of IFF where she is part of the R&D team in Probiotics and plays a critical role in the translation of the science behind probiotics. Through her education and experience, Dr. Stern has established a strong background in human nutrition, nutrient adequacy and an understanding of the impact of essential and non-essential dietary components on health. She also has extensive experience in the science of probiotics and the microbiome and a passion to bring products and education to the market for the promotion of health, wellness and improvement in quality of life.

Company

IFF HEALTH, WHERE SCIENCE AND CREATIVITY MEET

IFF Health is the global gateway to health and wellness intelligence, expertise and innovation for your brand.

WE DELIVER HIGH-QUALITY FUNCTIONAL HEALTH INGREDIENTS BACKED BY SCIENCE.

HOWARU® is a line of clinically mastered probiotic solutions from the leading industry experts at IFF Health. At IFF, we're using uncommon sense to create what the world needs. As a collective of unconventional thinkers and creators, we put science and artistry to work to create unique and unexpected scents, tastes, ingredients and formulations, revolutionizing health and wellness.

**Holistic health for modern women:
innovative probiotic combinations for whole body wellness.**

Abstract

Holistic health and mental well-being are key pillars of our solutions for today's woman who seeks personalized, multi-impact (or multi-benefit/multi-application) probiotics. In particular, the modern female consumer is seeking easy-to-use probiotic solutions paired with well-known botanicals for multiple health benefits – with 52% of U.S. women claiming convenience as their top influence in purchasing wellness products.

Key Elements

IFF Health's Dr. Stern's section will highlight benefits for women with respect to: vaginal health, stress, immunity, and emerging skin health research:

- Clinical evidence for women's health
- Innovative solutions that provide multiple benefits Benefits achieved through multifaceted mechanisms
- Benefits achieved through multifaceted mechanisms
