

# PROBIOTICS RESOURCE CENTER

## Theater Schedule

### Speakers Bio & Abstract

**DAY 1**

*Wednesday November 2, 2022*

**4:20–5:00**

*Antoine Vanhove  
Product manager*

*Dr. Stacey Smith  
Marketing-Communications Manager*

#### Bios

With a background in marketing and biology, Antoine has worked as junior product line manager in a biochemical company specialized in natural origin ingredients. As product manager in Gnosis by Lesaffre, Antoine is in charge of ingredients dedicated to the wellness & immune health including probiotics.

Coupling a clinical background with brand manager marketing experience in high efficacy nutritional solutions, Dr. Smith continues pursuing her passion to provide life-long health solutions through her role at Gnosis by Lesaffre. As the Marketing & Communications Manager for NORAM, she helps deliver the message on the innovative approach of utilizing biotransformation of microorganisms to improve life in a sustainable way.

#### Company

At Gnosis by Lesaffre, we harness the power of microorganisms and biotransformation processes like fermentation to cultivate nutritional actives, probiotics, and nutritional and functional yeasts that benefit human health and wellbeing.

We draw on our focused research and development capabilities, rigorous quality and regulatory standards, and extensive clinical validation procedures so that we can effectively collaborate with nutraceutical and pharmaceutical brands to develop game-changing products that help their customers thrive. We relentlessly explore the potential of microbial biotransformation—an untapped, transformative resource—to develop natural, sustainable, and efficacious solutions.

### LifeinU® BSCU1: the stable probiotic that supports immunity
